

EL Civics Technology Plan

Online Training Schedule

Fall 2007

Training on how to update the Technology Plan online will be offered via online meeting. This training is appropriate for those who are new to the technology planning process, and for those who would like a refresher. A handout will be provided and also posted online, and participants will be able to view the presentation and ask questions of the presenter and each other.

To attend an online meeting you will need to have a fast Internet connection (T1 or faster) and a phone that you can be on at the same time that you are online. In this format you can actually see the online submission form being demonstrated.

If you have questions, call Marian Thacher at OTAN, (916) 228-2597.
