# Technology Plan Includes:

---

- Planning Team
- Scope
- Vision Statement
- Needs Assessment
- Needs, Goals and Objectives
- Funding Issues
- Staff Development
- Evaluation

# Technology Plan – Important Points

---

- You will need TIME to develop a comprehensive plan to guide the use of technology in your program – Don't wait until January to begin!
- You will need to involve STAFF, and survey the computer skills of a number of staff.

# Technology Planning – Why?

---

- Make the best use of scarce dollars
- Have a tool to guide decision-making
- Get buy-in from all levels and program areas
- Create a common vision of where you're going with technology
- Focus on results for students
